

Bankroll Breakdown

A Poker Journal App

Ethan Yu, Steven Hoang, Timothy Yue, Cameron Schaefer

WHAT IS IT?

- + Mobile App
- + Users can enter poker player data (e.g.: win/loss ratio, variants of games played, player bankroll, and other useful information)
- + Data will be stored and changes will be displayed in useful, easy to understand graphs
- + Where applicable, averages and other helpful statistics will also be provided

SPRINT ONE USER STORIES

- + As a user, I would like to be able to create a personal bankroll
- + As a user, I would like to be able to put in my amount of money into the bankroll
- + As a user, I would like to be able to decide what variation of poker I am playing
- + As a user, I would like to be able to choose from a list of poker variations

SPRINT TWO USER STORIES

- + As a user, I would like to be able to choose the stakes I'm playing in for the session
- + As a user, I want to be able to save the location
- + As a user, I would like to choose which bankroll I'm using
- + As a user, I would like to record the start, end, and duration of the game session

SPRINT THREE USER STORIES

- + As a user, I would like to review and edit game session records
- + As a user, I want to make notes on my sessions
- + As a user, I would like to view relevant data about my games, such as profit averages, session times, average tip rage, bonus winnings, and other useful information
- + As a user, I would like the above information shown in a simple, easy to understand format such as a graph, with history from previous data available

TECHNOLOGIES

- + Slack, Trello, GitHub for communication, coordination, and record-keeping
- + [INSERT ANDROID/iOS DEV SOFTWARE HERE]
- + [INSERT ANDROID/iOS EMULATION SOFTWARE HERE]
- + [INSERT TESTING FRAMEWORK HERE, IF APPLICABLE]

CHALLENGES

- + Unfamiliarity with mobile app development
- + New APIs
- + Cameron has never played poker before and is generally kind of garbage at card games
