Poker Journal v.2

March 17, 2017

Revision 1, February 13, 2016

A mobile application that helps poker players track their progress and statistics in different important categories. This will help them realize their earnings, keep track of their spendings, how efficient they are at the game, and other areas of potential interests.

High Level Goals:

Create User Bankrolls

Create Tabs for Game Sessions

Create a Graph to Illustrate the Numbers

Keep Track of Bankroll

Keep Track of Average session time, Average buy in, Average profit, Tip amount, Buy ins, Rebuys, Bonuses, Expenses

Differentiate the Stakes of the game, Variation type of game, Location, Bankroll

User Stories for Release:

Sprint 1:

As a user, I would like to be able to create a personal bankroll

As a user, I would like to be able to put in my amount of money into the bankroll

As a user, I would like to be able to decide what variation of poker i am playing

As a user, I would like to be able to choose from a list of poker variations

Sprint 2:

As a user, I would like to be able to choose the stakes i'm playing in for the session

As a user, I would like to be able to write down the location i'm playing at for the session

As a user, I would like to be able to choose which bankroll i'm playing with

As a user, I would like to be able to choose what time I started my session and end

As a user, I would like to be able to write down my session time

Sprint 3:

As a user, I would like to see past sessions

As a driver, I would like to edit past sessions

As a user, I would like to see my average profit
As a user, I would like to see my average session time
As a user, I would like to see make comments on my sessions
As a user, I would like to see write down tips per sessions
As a user, I would like to see my average tip rate
As a user, I would like to see my bonus winnings

Product backlog:

Make a graph display of all session profits
Add tournament statistics
